1DEMO

EVALUATION VERSION

In the demo version, you can review and try all features but can not print or save the result.

2PCSW

SOFTWARE LICENSE

This version means that a license file is installed on your computer. There is an option to move the license to another computer.

You must be connected at least once a month to the Internet.

3PCHW

HARDWARE LICENSE

You can install CEDOC on multiple computers. You can then move the hardware lock between these computers.

4NWSW

FLOATING LICENSE

This version specifies how many people can use CEDOC at the same time.

You must be connected to local server and at least once a month to the Internet.

Subscription

Annual license fee shall be paid each calendar year in advance against invoice (30 days net). If the License Agreement is signed during the current calendar year, the fee will be calculated proportionally for the remaining part of the current calendar year.

If in subsequent years required new annual purchase order 100 EUR will be added.

Termination of the subscription shall be made at least three months before the end of the calendar year.

System requirements

- Operating system: Windows 7, Windows 8, Windows 10.
- .NET Framework version: 4.5
- Internal memory: 500 MB
- Disk space: 100 MB
- Graphic resolution: 1280 x 960 or higher is recommended.
- Other: USB port with HID support (for hardware lock).
